To whom it may concern:

I have acted as the architect on projects with Sirius Construction as follows:

- Relocation and premises remodel for the Shack Restaurant (Owner: Bill Worden)

New Construction:

- Larchmont Operations Center (Golf course club house; Owner: County of Missoula)
- The Cottages at Edna Court (A federally subsidized elderly housing project; Owner: District XI Human Resource Council)
- Sharehouse (A detox congregate home; Owner: Western Montana Mental Health Center)
- The Wyoming Street Campus of the Western Montana Mental Health Center (A complex of mental health facilities)
- The Blattner Apartments (A federally subsidized fully handicap accessible housing project)

I have found Sirius Construction to be responsible, timely and reliable. The projects have been completed on time, and within budget. I have enjoyed working with them in the past, and look forward to seeing them on our projects in the future.

I would welcome any inquiries regarding our association with Sirius Construction.

James Hoffmann
